C# | .NET 6 | ASP.NET Core | Entity Framework Core | MySQL | PostgreSQL | Docker

HTML | CSS | JavaScript | TypeScript | React | Redux | Node.js | ExpressJS

Experience

Dodo Brands / https://dodobrands.io / Moscow, Russia
An international franchise, which is developing food brands in over 16 countries around the world using IT.

Developer (Jan 2021 - Present)
- Designed, documented, and developed 6 API endpoints used to integrate corporate services with third-party systems (accounting systems, bots, CRMs, SaaS services).
- Implemented the MVP of the applications marketplace service, which can be used by franchisee partners to add new functionality to the corporate information system and expand its capabilities.
- Created a dashboard that gathers the technical support team's performance metrics from 2 third-party SaaS services and identifies issues with the team's work, saving 2-3 days per week of collecting that data manually.
- Developed a bot that automates the technical support team's daily operations and increases the efficiency and the SLA of the team by 8% during the year.

Super Brands / Moscow, Russia
A distributor of more than 12 world brands of clothing, footwear, and accessories for over 15 retailers in Russia.

.NET developer (Jul 2019 - Oct 2020)
- Increased the performance of sending orders to the internal accounting system by changing the existing integration from SOAP to REST.
- Adapted the functionality of importing and exporting products in Excel format for new data format to make search and navigation in export files easier.
- Provided technical support to the brand management team of 5-8 people and fixed several bugs based on their feedback.

Quorum / Moscow, Russia
An integrator with 20 years of experience providing IT solutions for over 40 financial institutions in Russia.

.NET developer (Nov 2018 - Jun 2019)
- Developed and supported the application for automating banking loan pipeline

Education

Bauman Moscow State Technical University / https://www.bmstu.ru / Moscow, Russia
BASc, Informatics and Computer Science (Sep 2014 - Jun 2018)
Robotics and Complex Automation, Computer-Aided Design and Engineering
